

Swathi V

Aspiring Software Engineer

About Me

Hello! I'm Swathi, a passionate and dedicated Computer Science Engineering student with a keen interest in web development and programming. I enjoy exploring how technology can simplify real-world problems. Currently, I'm building my skills in Python, HTML, CSS, and C programming, while also learning basics of data analysis and machine learning. I am a fast learner, a good communicator, and a team player who loves challenges. My goal is to create meaningful and user-friendly applications.

Skills

- Python
- HTML & CSS (Fundamentals)
- C (Basics)
- Communication & Problem-Solving

Product Analyzer

A machine learning project that analyzes product sales across different brands and displays dendrogram-based insights using Streamlit.
